Dear Mrs. Fernandez,

During 2012-2014, specialists from Grand Staircase-Escalante National Monument visited the proposed millsite property in Kitchen Corral to inspect reclamation that has occurred on the site.

Our specialists determined that the reclaimed site is stable and evidence of any previous disturbance is very difficult to see. Two shallow monitoring wells were discovered near the site and these were plugged using concrete and native soils.

It is our determination that the reclamation on Kitchen Corral Millsite (UTU-67517) has been successful and our recommendation is that the site be closed. No bond was ever held for this property.

If you have any questions, feel free to contact James Holland at the Kanab Field Office at 435.644.1277.

Sincerely,

Cynthia Staszak
Monument Manager
